

NFD AGRO LIMITED

Architecting Nigeria's New Agricultural Economy

CORPORATE PROFILE

RC No. 1390052 · Incorporated 2020 · Operational 2022

ABOUT US

Who We Are and What We Do?

NFD Agro Limited, a subsidiary of New Frontier Developments Limited, is a vertically integrated agribusiness incorporated in 2020 and operational since 2022. We operate as an Integrated Agri-Management Platform (IAMP), moving beyond traditional trading to de-risk entire agricultural value chains.

Through our proprietary Silo-Bank System, we connect smallholder farmers directly to global markets-guaranteeing supply, ensuring quality, and unlocking value across the entire ecosystem for farmers, processors, financiers, and consumers.

OUR VISION, MISSION AND STRATEGIC IDENTITY

The Purpose That Drives Us

VISION

To be Nigeria's most respected, sustainable, and profitable vertically integrated agribusiness company.

MISSION

To empower Nigerian agriculture by building a resilient, vertically integrated ecosystem that delivers premium-quality products to global markets and generates sustainable returns through innovation, integrity, and strategic partnerships.

STRATEGIC IDENTITY

Value Chain Orchestrator

NFD Agro is not just a farmer or trader - it is the central manager, integrator, and de-risker of the entire agricultural ecosystem. We don't source commodities; we architect resilient, data-driven, and financially empowered agricultural systems.

STRATEGIC OVERVIEW

Transforming Into A Vertically Integrated Agribusiness Platform

₦4.2B
Revenue (2025 Actual)

45%+
Target ROI

₦100B+
Revenue Target by 2028

NFD AGRO LIMITED PURPOSES INCLUDE:

- De-risking operations and capturing margin at every stage
- Lowering cost of capital through asset-backed Warehouse Receipt Financing
- Managing the full value chain from seed to shipment
- Positioning NFD Agro as Nigeria's National Agricultural Value Chain Orchestrator
- Transforming into a vertically integrated agribusiness platform.

Our Goal: To Become Nigeria's National Agricultural Value Chain Orchestrator.

STRATEGIC POSITIONING

Management Platform (IAMP)

Central Management System (The Brain)

Oversees strategy, finance, technology, and governance across all commodity verticals to ensure end-to-end operational excellence.

Silo-Bank (The Heart)

Standardized engine for commodity storage, quality control, and financial innovation through warehouse receipt financing and digital receipts.

Commodity Verticals (The Limbs)

Dedicated profit centres for Soybean, Alfalfa, Chilli, Maize and more—each operating independently within the integrated platform.

OUR UNIQUE VALUE PROPOSITION

Three Pillars of Differentiation

Silo-Bank: Financial Engine

- Designated Aggregation Centres (DACs) issue Digital Warehouse Receipts
- Farmers access instant liquidity or use receipts as collateral
- Transparent pricing, agronomic support, and fair settlement

End-to End Value Chain Control

- Aggregation: Digital registration and quality grading
- Processing & Distribution: Reliable delivery to manufacturers and export markets
- Production: Out-grower networks and climate-smart practices

Embedded ESG as a Business Driver

- Environmental: Solar-powered processing, water efficiency
- Social: Farmer training, gender inclusion, community uplift
- Governance: Transparent contracts, ethical sourcing, full traceability
